**ADDITIONAL INFORMATION SUPPORTING NJD** (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite):

Two wetland basins are on the parcel (0.09, 1.06 acres respectively). No field visit of the site has been conducted. The determination is based on local topographic map, U.S.G.S. quadrangle, aerial photograph, National Wetland Inventory Mapping, and U.S.D.A. Soil Survey for Itasca County. The reviewed data and resources indicate there is no surface water connection to navigable waters of the U.S. or to waters of the U.S. Furthermore, there is no identifiable or likely interstate commerce nexus in either of the two wetland basins.
